Summary of work performed

We have performed our procedures on the key performance indicators of the Company, as prepared by management in accordance with management's basis of preparation and reporting criteria for the year ended 30 September 2019.

Our evaluation included performing such procedures as we considered necessary which included:

- interviewing management and senior executives to obtain an understanding of the internal control environment, risk assessment process and information systems relevant to the sustainability reporting process for the selected subject matter;
- testing the systems and processes to generate, collate, aggregate, validate and monitor the source data used to prepare the selected subject matter for disclosure in the Integrated Report;
- inspected supporting documentation and performed analytical review procedures; and
- evaluated whether the selected key performance indicator disclosures are consistent with our overall knowledge and experience of sustainability processes at Pioneer Food Group Limited.

Our assurance engagement does not constitute an audit or review of any of the underlying information conducted in accordance with International Standards on Auditing or International Standards on Review Engagements and accordingly, we do not express an audit opinion or review conclusion.

We believe that our evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusion.

In a limited assurance engagement, the procedures performed vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether the key performance indicator information has been presented, in all material respects, in accordance with management's basis of preparation and reporting criteria.

Conclusion

Based on our work described in this report, nothing has come to our attention that causes us to believe that the key performance indicators are not prepared, in all material respects, in accordance with management's basis of preparation and reporting criteria.
